

SerialUART::UARTController
::TransmitInt

SerialUSB::USBController
::TransmitInt

Serial::Int2ASCII

```
graph LR; A[SerialUART::UARTController::TransmitInt] --> C[Serial::Int2ASCII]; B[SerialUSB::USBController::TransmitInt] --> C;
```

The diagram illustrates a dependency or call relationship. Two methods, `SerialUART::UARTController::TransmitInt` and `SerialUSB::USBController::TransmitInt`, are shown on the left. Arrows from both of these methods point to a single method, `Serial::Int2ASCII`, which is located on the right. The `Serial::Int2ASCII` box is shaded gray, while the others are white with black borders.
