

SerialSPI::SPIController
::Receive

```
graph LR; A[SerialSPI::SPIController::Receive] --> B[SPIHAL::EnableRxFull]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text "SerialSPI::SPIController" on the top line and "::Receive" on the bottom line. A blue arrow points from the right side of this box to the right side of another rectangular box on the right. This second box is white with a black border and contains the text "SPIHAL::EnableRxFull".

SPIHAL::EnableRxFull
